

Ingredients:

- 1 box dark chocolate cake mix
- 1/2 c. vegetable oil
- 1 c. sour cream
- 1 small box of instant chocolate pudding mix
- 1/2 c. warm water
- 4 eggs
- 12 oz. chocolate chips (also can use health chips, peanut butter chips, etc.)

Directions:

1. Preheat oven to 350 degrees. Grease and flour a bundt pan
2. Mix all ingredients, except eggs and chocolate chips. The mixture does not have to be smooth, just mixed well.
3. Add eggs, one at a time, beating well after each addition. Stir in chocolate chips.
4. Bake for 1 hour and then cool for 10 minutes in the pan. Turn the pan upside down and tap the sides until the cake comes out. Cool completely on a wire rack before frosting.
5. Sprinkle with confectioners' sugar or cover with dark chocolate frosting.

Do not refrigerate. Serves 10 to 12.
